96%

of parents who received a parent coach call said it was helpful.

Family Futures

Results that last a lifetime.

99%

Of parents who received materials or a referral from a parent coach said it was helpful.

Looking Ahead

You shared what you would like to see added to Connections. We heard you and plan to:

- **Enhance our information & resources:** The Connecting with Connections seasonal newsletter will continue to provide you with information and resources on parenting, discipline, safety tips, play groups, potty-training, and more. We will also be adding a blog and increasing our educational content on Facebook. Watch out for more!
- **Help you prepare your child for school:** Look for our “Ready for Preschool” and “Ready for Kindergarten” packets in the mail for 4 and 5 year olds. We hope each of these resources will guide and support your family on the journey to getting ready for school! We are working on packets for the younger ages too.
- **Add parent education classes:** For two years, you have asked for this and we will be hosting more parenting classes this year and in years to come.

Parent Comments

“Honestly, this has been the most resourceful thing! The help, pamphlets, advice from the parent coach was pretty neat too! I was able to keep a gage on what I’m looking for at a particular ages while my daughter is growing. And as a 1st time mother that has been the best thing!”

“Connections is a wonderful program that helped me set aside time to track my children’s development. It helped me to identify what skills would be coming next and what activities I could use through play to support development.”

“Connections is a fun way to see how your child is developing. It even has made us discover skills we didn't realize our toddler had! It’s fun trying new things and Connections give us great ideas.”
